

Are You:

- ✓ Working on a B.S. in Human Development and Family Studies?
- ✓ Interested in working with families of children from birth to three who have disabilities?
- ✓ Wanting Utah Department of Health credential to serve these children in a Head Start Baby Watch early prevention program?

The Special Education Minor designed for HDFS majors can help you reach this goal!

SPED Minor for HDFS Majors

These courses, along with a Bachelor's degree in HDFS, will work toward the Utah Department of Health credential to serve children with disabilities ages 0-3 and their families in the Baby Watch Early Intervention program. Admittance to these courses in special education is by permission of the Special Education Department.
